

NNN 2017 Conference: Call for Papers

Would you like to present at the 2017 National Numeracy Network (NNN) conference in New York City? We invite educators to submit proposals for our sessions that highlight:

- Connections between the Digital Humanities (DH) and Quantitative Reasoning (QR).
- Connections between the Sciences and Quantitative Reasoning (QR).
- Connections between Statistical Thinking/Data Analytics and Quantitative Reasoning (QR).
- Connections between Information Literacy and Quantitative Reasoning (QR).
- Leading QR Centers.
- Teaching Numeracy/QR/QL
- Related topics

There will be three different types of presentation formats:

1. **Paper sessions (30 minutes):** Presenters will have 20 minutes for a talk; 10 for Q&A.
2. **Facilitated sessions (60 minutes):** Facilitators will introduce a topic for 15-30 minutes and then lead a discussion for 30-45 minutes.
3. **Poster session:** Posters will be on display during a dedicated poster viewing session.

Proposal Submission Guidelines:

Please include the following in your proposal and submit directly to Eric Gaze egaze@bowdoin.edu. The call for proposals closes on **July 31, 2017**.

1. Name, Professional Title, and Institutional Affiliation.
2. Title and type of session (paper/facilitated/poster).
3. Abstract (500 words maximum): Clearly identify which topic you will address, your relevant experience and how you will engage the audience. Proposals are expected to highlight a deeply relevant topic and to explore trends and developments in our field while sharing best practices and innovative solutions.

Multiple presentations are acceptable. Limited funding is available for supporting a number of talks to be determined by the conference selection committee.
